

ARDALE SIMBOL

Operations & Customer Support Manager | SaaS • Live-Event Ticketing • Healthcare Support

Quezon City, Philippines | 0977-007-7590 | ardale.simbol1991@gmail.com | linkedin.com/in/ardale-simbol

PROFESSIONAL SUMMARY

Operations leader with 10+ years driving service delivery, workforce planning, and process improvement across SaaS, live-event ticket resale, telecom, and B2B/B2C support environments. Builds KPI/OKR frameworks, executive dashboards, and SOP/SLA governance that turn day-to-day support operations into measurable, accountable systems. Track record of leading cross-functional teams (customer success, fulfillment, QA, and support) through U.S. timezone coverage models, AI-driven workflow automation, and structured onboarding — with an approach built on data-driven decisions and continuous improvement. Seeking a Manager/Supervisor role in SaaS, ticketing, or healthcare-adjacent customer support.

CORE LEADERSHIP COMPETENCIES

Operations Management	KPI & OKR Governance	Workforce & Capacity Planning
SOP & SLA Development	Backlog & Queue Management	AI Workflow Automation
Dashboard & Business Intelligence	Customer Experience Strategy	Cross-Functional Leadership
Service Delivery / SaaS Ops	Performance Management	Change Management
Root Cause & Continuous Improvement	Executive Reporting	Project Management

KEY ACHIEVEMENTS

- Designed AI-powered workflow automations that cut manual processing steps and improved data accuracy across support operations.
- Built KPI/OKR frameworks with executive dashboards that gave leadership real-time visibility into service levels, backlog health, and team productivity.
- Established structured backlog management and capacity planning that improved turnaround time and SLA compliance.
- Created sales playbooks and conducted market research that strengthened customer acquisition, pricing, and product positioning.
- Standardized SLAs, SOPs, and escalation procedures to improve consistency and scalability across the support organization.
- Engineered a U.S. timezone-aligned staffing model that maintained service coverage across a 24/7 support operation.
- Built and led a cross-functional operations team spanning customer success, ticket purchasing, inventory, fulfillment, and quality assurance.
- Developed onboarding and cross-training programs that shortened new-hire ramp-up time.

PROFESSIONAL EXPERIENCE

Operations Support Manager

Reps&Co. (Live-Event Ticketing) | Mar 2024 – Jul 2026

- Directed daily support operations across ticket purchasing, inventory management, fulfillment, and loss prevention, maintaining SLA adherence and service quality.

- Led cross-functional teams through workforce planning, coaching, and resource allocation to support 24/7 operations with U.S. timezone coverage.
- Designed AI-driven workflow automations that eliminated manual processes and increased team productivity.
- Built KPI/OKR frameworks and executive dashboards giving real-time visibility into backlog health, service levels, and team output.
- Developed backlog management strategies using operational data and trend analysis to improve turnaround times and capacity planning.
- Authored and continuously improved SOPs, SLAs, and escalation procedures to standardize workflows and support scalability.
- Built a structured operations-support framework that improved cross-department collaboration and workload prioritization.
- Conducted performance reviews and root cause analyses to close process gaps and reduce operational risk.
- Led onboarding and cross-functional training programs that accelerated ramp-up and strengthened team versatility.
- Produced executive reports and dashboards that supported data-driven decision-making at the leadership level.

Operations Manager
